

## **Multiple Sclerosis**

**Cabourg, Normandy – France**

**May 25-29, 2016**

Since 2004, Cabourg Jumping is devoted to financing Multiple Sclerosis research programs through ARSEP foundation with cumulative € 630K (\$ 725K) donations coming from Jumping events.

BioNautilus Consulting is proud to sponsor a young rider and his 6-year old horse 'Alizee de la Gazo' for annual Cabourg Show Jumping. We wish to all riders and horses a lot of fun and successes for the competition, and a good collect for Multiple Sclerosis.

Multiple Sclerosis is an unpredictable often disabling disease of the nervous central system that disrupts the flow of information within the brain and between the brain and body. It affects 2.5 millions people worldwide including 400,000 americans.

Information for donations to ARSEP (French Multiple Sclerosis Research Foundation):
